

Never Saw It (Jim to Donna) Kevin Whalen

**We grew up in the same hometown - Clear mid-western air
We grew up in the same hometown - Young love blossomed there
Our young love blossomed there**

**That love it was madly magic - Nothing could compare
Our love was madly magic - For years that love we shared**

**You once awoke forgot your bad dream - Gave us such a scare
Once awoke forgot your bad dream – Harbinger nightmare**

*But we never saw it coming --- Never saw it there
Never saw it coming - Your memory was frail.*

**Still, you always kept on smiling - Your smile always there
You always kept on smiling - Laughed off our despair**

**We would always play gin rummy - Seeking runs and pairs
We would always play gin rummy – Now it's solitaire
Now I play - solitaire**

*But we never saw it coming --- Never saw it there
Never saw it coming - Your memory was frail.*

**Lost you first when you forgot me – Hopeless were those prayers
Lost you again that time forever – Twice lost seems unfair**

**I feel so untethered lately - Life's a strange affair
I feel so untethered lately – Hanging in midair
Like I'm hanging In mid air**
