

Life Is A Wonder

Kevin Whalen

**Life is a wonder - when older and when younger
Life is a wonder - all along the way**

**But questions to ponder - of here and beyond are
Always on our minds come the close of the day
Always on our minds come the close of the day.**

**Life moves so quickly - so furtive and so swiftly
Life moves so quickly - all along the way**

**Live it to the fullest - make each day a life fest
Then, we'll have no regrets come the close of our days
Then we'll know contentment come the close of our days.**
